Chord Progression

Use a chord and lyrics lead sheet to obtain the chords for the section of the song you would like to play. Identify the key of the song and translate the chords into Roman numerals.

Ignore extensions and alterations when analyzing the chords | C⁷ is C | C^{add9} is C | C⁻¹¹ is Cm |

Transpose the Roman numerals to chords in the key of C or G.

Make sure the chord and lyric sheet you find doesn't include a capo transposition | capo on 3rd fret |
